

## ERRATA SHEET

---

### VoIP Phone snom 360

#### 1. PC headset support

##### DESCRIPTION

snom 360 does not support PC headset which is wrongly stated in some documents and on the snom 360 packing box

Software version: All

Serial number: 000413230040 – 0004132313C8

Workaround:

None.

Planned fixes:

None.

#### 2. Ethernet cable insertion

##### DESCRIPTION

If the Ethernet cable is inserted while the phone is running, then in some cases phone hangs up (ESD problem) and remains in "Ethernet cable unplugged" state.

Software version: All

Serial number: 000413230040 – 000413232750

Workaround:

Make sure all cables are connected before powering up the phone. If the phone is already hang up then do power reboot.

Planned fixes:

Next hardware revision
